DUTCH HYBRID AMARYLLIS BULBS

FAMOUS LUDWIG STRAIN

WE IMPORT ALL OUR BULBS DIRECT

The AMARYLLIS bulbs listed in this folder are 24/26 cm. circumference (larger around than a tennis ball) unless otherwise specified.

They are guaranteed true to name and to produce top quality size and texture blooms unless they are purchased after blooming.

All orders of bulbs from this folder are shipped postpaid and guaranteed to arrive in good condition.

Some varieties sell out quickly, so if your order

includes any bulbs in this category we will advise you and ship that particular bulb upon arrival of our next shipment from Holland. The other bulbs in your order will be shipped immediately.

We are not to be held responsible for delays or mishaps beyond our control.

All orders acknowledged same day as received.

Remit with order please.

THANK YOU.

LUDWIG AMARYLLIS NOVELTIES

PREVIOUS NOVELTY — #631 now christened MISS MARGARET TRUMAN. We have never had the privilege of feasting our eyes on such unsurpassable beauty as these blooms present. Our GOD and Creator has poured HIS love and grace for us into these blooms.

A sort of porcelain rose with a camellia rose reflection. Camellia rose stamens and a dark rose throat.

Two 26" to 28" scapes each with four 7½" to 8" blooms of faultless shape are produced with perfect depth of throat. Limited supply priced at \$15.00 each and worth it.

AMARYLLIS GRACILIS — Bulbs of this fine new race of miniature Amaryllis are available in limited quantities. They produce blooms of four to four and a half inches in diameter usually four to five blooms to each scape or stem. Every bulb will shoot at least two but generally three slender scapes 16" to 20" tall.

Available only in mixed colors ranging from dark red to orange, carmine red and rose, mostly with a faint streak in the throat, priced at \$3.00 each

(Have you ever thought of this? You can plant these bulbs or seeds or plants and water them but only GOD can produce and unfold their beauty to us for which we thank HIM.)

Available Till Sold Out

Choice Bulbs From Belgium

TUBEROUS ROOTED BEGONIA bulbs in six breath-taking colors, copper, crimson, white, orange, pink and red, in only single and double Camellia.

Indouble Camellia and Pendulas (hanging type), these bulbs are not less than 1½" in diameter and

priced at 6 for \$1.75 or \$3.25 per dozen, an astonishing low price for such large healthy bulbs.

GLOXINIA bulbs in three stunning colors, red with white border, blue with white border and scarlet with white border, same size as above BEGONIAS and priced 6 for \$2.00 or \$3.75 per dozen.

PLANTING AND CULTURAL SUGGESTIONS FOR AMARYLLIS

As soon as bulbs are received unwrap carefully and plant them at once using 6" or 7" clay pots (squatty if available) filled to within an inch of the top with a mixture of equal parts of leafmold, sand and a humusy material. Place bulb in soil so that at least half of the bulb is above surface of soil being careful when setting to spread the bulb roots and fill in around them with the soil.

Moisten soil all thru (not wet) and place potted bulb in weak light and a temperature of 65 till flower stem emerges from bulb when it can be placed in a little stronger light. About a week later place in a window or wherever you desire to have it bloom and keep soil moist.

After all bloom is finished remove flower stems close to top of bulb using a sharp knife and allow foliage to develop as the foliage produces the flower buds in the bulb for the following season. When the foliage shows signs of dying reduce watering to rest bulb for several weeks then when signs of life appear in the form of young shoots increase watering and place plant in more light.

Bulbs can be kept in pots for a number of years without repotting but the spent top inch of soil should be replaced at least once a year and liquid feeding should be practiced starting with foliage growth at least once a month.

REVISED 1951-1952 DUTCH AMARYLLIS LIST

From

JOHNSON BROS.

P. O. BOX 463

• **BOUND BROOK, N. J.**

- Tell your flower loving friends where they can obtain a duplicate of this folder. That will be pleasing to them, to yourself and to us. — Thank you.

Mr. Shaw:

The enclosed revised list finishes our season.

This fall we will be happy to send to you our new list and those which follow.
